

Take your office with you

The freedom to truly work anywhere with Zoom & iPad®

Welcome to your new office with Zoom & iPad

Modern hybrid teams need to work seamlessly from any location and across any time zone. Zoom & iPad can provide the best experience whether your users use their mornings to work from home, join meetings at the coffee shop, or host team all-hands at the office.

Thanks to this unique integration with Zoom & iPad, teams can efficiently communicate with confidence and ease. Enable true collaboration for your teams, their partners, and customers.

Together, Zoom & iPad enable your modern hybrid workforce with high-quality audio, video, and security. Empower your distributed teams to collaborate effortlessly from anywhere with simple workflows, enhanced productivity and a frictionless user experience.

With Zoom & iPad users can:

- Achieve a unified video experience across all their devices
- Find & share whiteboard content quickly inside a Zoom meeting or Zoom chat
- Join Zoom meetings hands-free
- Experience freedom during presentations with Center Stage™
- Transfer calls seamlessly to and from AirPods®, MacBook®, iPad®, iPhone®, CarPlay® or a Zoom Room
- Enjoy crystal-clear HD video and audio
- Activate a scheduling display or use as a controller with a Zoom Rooms system

Hybrid work is accelerating

of HR leaders believe employees are as productive working from home as in the office.

of HR leaders indicated that they now completely trust employees to work from home.

“ The Zoom & iPad integration has given our workforce the freedom to work from anywhere. Our users seamlessly switch between applications and devices for a truly stable, secure, and hybrid environment. ”

Mike Logan, Dean of IT, WITCC

Zoom's seamless integration reduces friction and risks when switching between applications and devices, so your teams can stay focused on the meeting at hand. Reduce frustration and enhance productivity with a revolutionized collaboration experience.
