# One solution for AI, Team Chat, Phone, Meetings, and more

**Zoom One makes teamwork more meaningful** by bundling Zoom AI Companion, Team Chat, Phone, Meetings, Whiteboard, and more. With an all-in-one solution for internal and external communications and collaboration powered by AI, you can save time, reduce costs, and increase productivity. Choose the right plan for your unique needs, scale to support growth, and customize with optional add-ons.

## Key Benefits

### All in One

Optimize the way you work with integrated workflows across Zoom products and third-party apps. Simplify management with a single admin portal.

### Powered by AI

Empower teams and individuals with smart features for composing and summaries. Zoom AI Companion is included with all paid plans.

### Simple Pricing

Choose from a variety of plans to meet your unique needs. Customize with optional add-ons and add users as needed. We strive to be transparent with no hidden fees.

## Zoom One Products

### AI Companion

Increase productivity and improve team effectiveness with smart features for summaries, composing, and more.

### Phone

Place and accept calls on any device with our reliable, feature-rich cloud phone system that is simple to deploy and built for the modern collaboration era.

### Team Chat

Keep information flowing and organized across chats and channels with our persistent chat solution that is tightly integrated with Zoom products and third-party apps.

### Whiteboard

Brainstorm, plan, and learn using our persistent, virtual collaboration space. Ideate from anywhere with sticky notes, drawing tools, comments, and more.

### Meetings

Bring teams together with reliable, HD audio and video interactions. Collaborate and make everyone feel included with capabilities like screen sharing, chat, and translations.

### Mail, Calendar & Scheduler

Manage your day in one place with our email, calendar, and scheduling solutions that support Microsoft 365, Google, or Zoom Mail & Calendar Service.

### Productivity Tools

Optimize the way you work and build stronger connections with productivity solutions for notes, video clips, and virtual co-working spaces.

### Webinars & Sessions

Host high-quality, engaging experiences and easily broadcast your message to large internal and external audiences.

### Spaces

Elevate your office experience with modern work solutions that make hybrid meetings more inclusive and support flexible workspaces.

“Zoom One gives us the ability to bring piecemeal products into a single platform we believe in. When you bundle, there’s a cost advantage, but more important is the user experience. You don’t have to jump out into all these different tools, you can unify them into one experience.”
