Cost control Take direct control of your cost as you take advantage of tata communications extensive carrier reach and supplier redundancies

Manage better with Tata communications Global SIP connect

Tata Communications is uniquely placed to deliver a fully managed, fully owned, end-to-end UC solution. Leveraging the combined global scale of deployment experience and Network services built on a carrier Tier 1 infrastructure grade foundation of our Global SIP connect service

- **Single contract:** - Our global reach lets us handle your local and international voice needs with a single contract covering 27 countries and international termination in over 240 countries with improved, uniform service levels for your employees, and compliance with all in-country regulations.
- **Scalability:** - Global SIP Connect lets you efficiently manage your global voice services by consolidating equipment at a central site, saving money on licence charges per location. Add sites at any time without deploying additional hardware and scale bandwidth in more flexible increments than traditional TDM voice circuits.
- **Comprehensive view:** - We lighten your management burden with complete technical, operational, and administrative support on both the provisioning and maintenance of local and international voice services. You have a single view of your entire voice network through a self-service portal powered through APIs.
- **Simple, easy management:** - With our geo-redundant architecture, we offer centralized SIP trunking services and number portability which ensures better management as well as optimal business continuity and disaster recovery.
- **Integrated fraud controls:** with our comprehensive AI-enabled Fraud-Prevention-as-a-Service offering across all services including fraud preventions APIs, detection and alerting, and portal

TATA COMMUNICATIONS BEING ONE OF THE LARGEST SIP TRUNKING PROVIDERS IN THE GLOBAL MARKET IS ALWAYS A PREFERRED CHOICE FOR ENTERPRISE CUSTOMER

Service Footprint:
