

See it Live!

Maximize the ROI of your Existing Zoom Room Hardware

Korbyt Anywhere and Zoom make it possible to turn your meeting room displays into a digital signage solution. No additional hardware is required, and there's no need for intricate setups. Just install the Korbyt app from the Zoom App Marketplace, provision your player, and witness a boost in the impact of your communications.

Corporate Announcements

Keep your team informed and engaged with dynamic digital, delivering important updates, news, and signage company announcements.

Personal Welcome

Create a warm and personalized welcome for visitors, displaying their names or messages on digital signage, leaving a lasting impression.

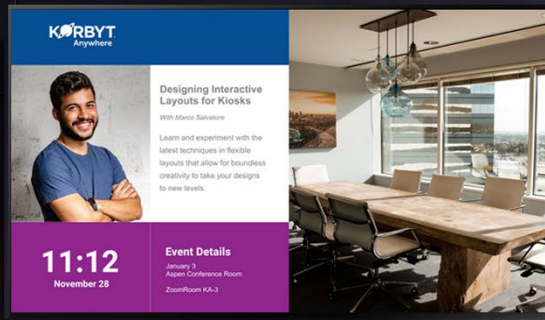

Emergency Alerts

Prioritize safety with emergency notifications and instructions displayed on digital signage, helping to keep everyone informed during critical situations.

Room Scheduling

Streamline scheduling and make room availability clear with digital signage, helping to ensure efficient and organized use of meeting spaces.

Korbyt's CMS offers a one-stop solution for content management, allowing seamless creation, targeting, and measuring of enterprise content

Easy Asset Management

Auto-sync your Media Library with popular cloud media storage solutions: OneDrive, Google Drive, Box, Dropbox, or Adobe Experience Manager.

Customized Content

Photoshop-like design editor to create new static or dynamic layouts with your choice of images, video, text, and data.

Interactive Experiences

Design and implement kiosk displays that enable interactive experiences like wayfinding, workspace reservations, corporate directories, etc.

Targeted Delivery

Control single or multi-zones on multiple screens, or delegate publishing rights to other teams.

Automate Signage Updates with Powerful Integrations

Calendar & Event Data

Utilize your existing calendar and event management data to automate content on the screen.

Content Integrations

Pull content from your existing cloud media storage to increase the number of contributors.

Real-Time Data

Seamlessly integrate data from enterprise platforms into dynamic messaging for instant engagement and increased productivity.
